

DEVINA'S FULL BIO

Devina Natalie Sutjiono, also known as Dev, is a violinist, composer, and educator from Indonesia. She started to learn and take formal violin and vocal lessons at the age of 9. As time went by, she gradually became an active performer for various kinds of events, such as weddings and formal gatherings. At the age of 11, she decided to stop taking vocal lessons as she wanted to focus more on her violin rather than her vocals.

Devina has completed her high school at Sekolah Ciputra Surabaya. During that high school days, she was trusted enough to handle some music projects, such as 2018 Sekolah Ciputra school production where she had to compose a melody based on a poem, 2016 IB MYP Personal Project where she had to choose a project and she chose to arrange a western song by putting some the Indonesian elements in it. After she handled those projects, she finally realised that she is actually really into it and she wants to take it more seriously, by taking a degree in music.

Devina has completed her Music Degree at LASALLE College Of the Arts Singapore majoring in Popular Music Performance, with violin as her major instrument. Her repertoire is versatile, from Pop, Country to Rock and Alternative Music. Devina expresses her feelings and thoughts through the melodies that she chooses and plays. She is known as a passionate and hard-working violinist with a strong repertoire and excellent virtuosic violin playing.

Devina has performed for various local artists, and now, She is currently involved in a local alternative band called 'Building Fire' as the front violinist. She made her first debut performance with Building Fire at LASALLE Rock and Indie Festival in 2020.

As a part-time educator, Devina prioritizes making her lesson fun but yet interesting. She believes that building good basic foundation skills is very important to her students as it will help them to improve their technical aspects of it.

After Devina graduated from LASALLE, she embarks her journey as a Sales and Business Development Executive at Gramercy Music. This is where people know her better as the 'violinist girl' of Gramercy Music.

Although Devina is a full-time Sales and Business Development Executive, Devina also intends to pursue her musical career as a violinist, singer, composer. She also hopes to release some of her compositions on music platforms.
